

# LDP-M1: Project Selection

NYU Educational Communication and Technology DMDL/G4L Thesis

## Write-up

My write-up answers following questions:

	not there yet	kinda, but needs work	strong
For whom would this LDP be designed and for what purpose? (What is the driving question, problem, issue, or need I am addressing?)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Why is something like this important for my target group? For others? (How do I know this to be true-- <b>convince us by backing up your claims using credible sources</b> )	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
What are the outcomes I care about, or the impact I hope this project will have? (if applicable, this could be stated in terms of acquired knowledge, skills or changes in behaviors and attitudes)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
What are some insights I already have about this problem or my learners that might guide my solution ideas?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(optional) What are some initial project ideas? (stay light and tentatives; these ideas may change later and you don't want feedback to focus only on your solutions right now)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
How/why might my project be different/unique or better in some way than solutions that are already out there? (what are those other solutions, if known at this point)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

## Comments

## Other considerations:

I have considered following:	No idea	Not sure	Yes!
This project is feasible for me.. (what skills and knowledge do you already have and what you will need to acquire?... if your solution ideas are tentative, this may be hard to know at this stage. That's ok)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
I have or can gain access to my target users/ participants/ subject matter experts/ other collaborators (for input, feedback, user testing, etc)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
This project will involve at least a few things I can build on (a deep interest, experience, subject matter expertise, technical skills, use of a certain design process)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
I have jotted down and gotten some feedback on any questions or concerns I have about this project.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
